

Cranes & Rigging (Rev. 0)

	YES	N/A	LOI OBSERVED
1.	<input type="checkbox"/>	<input type="checkbox"/>	Equipment Declaration submitted to STR. (Subcontractors)
2.	<input type="checkbox"/>	<input type="checkbox"/>	Written confirmation of required operator qualifications is available. (Note: Construction Mobile Crane Operators must be NCCCCO Certified)
3.	<input type="checkbox"/>	<input type="checkbox"/>	Annual Crane equipment inspection records are current and available at work site
4.	<input type="checkbox"/>	<input type="checkbox"/>	Crane equipment is inspected by a designated competent person daily prior to use
5.	<input type="checkbox"/>	<input type="checkbox"/>	Operator is aware of any overhead commodities such as steam, power, or communication lines
6.	<input type="checkbox"/>	<input type="checkbox"/>	Operator performs a hoist/crane brake check each time a load is lifted.
7.	<input type="checkbox"/>	<input type="checkbox"/>	Swing radius of crane is properly guarded or barricaded
8.	<input type="checkbox"/>	<input type="checkbox"/>	Rigging personnel are familiar with rigging equipment capacities, limitations, and proper applications
9.	<input type="checkbox"/>	<input type="checkbox"/>	All proximity hazards have been identified and proper controls (i.e: Lock Outs, Barricades / Traffic Cones) are in place
10.	<input type="checkbox"/>	<input type="checkbox"/>	Ground conditions are stable and acceptable
11.	<input type="checkbox"/>	<input type="checkbox"/>	Rigging equipment and devices are inspected prior to use
12.	<input type="checkbox"/>	<input type="checkbox"/>	Portable lifting devices (hoist, come-a-longs, etc) are inspected prior to each use
13.	<input type="checkbox"/>	<input type="checkbox"/>	Defective rigging and lifting devices are promptly removed from service
14.	<input type="checkbox"/>	<input type="checkbox"/>	Forklift rigging or lifting attachments (e.g; Choker Hooks, Rigging Booms,etc.) are approved by the manufacturer and include applicable load chart information
15.	<input type="checkbox"/>	<input type="checkbox"/>	Below the hook lifting devices are designed by a qualified engineer and visibly marked with required information (ie; capacity, weight, manufacturer ID)
16.	<input type="checkbox"/>	<input type="checkbox"/>	Tag lines are used to control loads where necessary
17.	<input type="checkbox"/>	<input type="checkbox"/>	Critical lift plans (when applicable) are used and available at the work site
18.	<input type="checkbox"/>	<input type="checkbox"/>	Personnel stay out from underneath suspended loads and maintain safe distances away from swing paths
19.	<input type="checkbox"/>	<input type="checkbox"/>	Crane is properly grounded (earthen) when working in close proximity to overhaed electrical lines.
