To: Retired Pensioners Who Received a 1099-R Form

Re: **Formatting Error on 2011 Form 1099-R**

The Pensioner 1099-R forms mailed out this week contained some formatting errors. The nature of the formatting errors was contained in the following fields:

- **Field 10** – contained the “**State Tax Withheld**” dollar amount
 - This information should have been reflected in Field 12
- **Field 12** – contained “**State/Payer’s State No**”
 - This information should have been reflected in Field 13

Note that while the information on the form is correct, the data was printed in the incorrect boxes.

A revised 1099-R form will be mailed to your home address on or before January 31st. Use this second (revised) Form 1099-R as your official reference when filing your taxes.
