## **SRS Defense Waste Processing Facility Meets Production Goal for 5<sup>th</sup> Consecutive Year**

- **The Savannah River Site's Defense Waste Processing Facility safely stabilizes high-level liquid radioactive waste in a durable glass form.**
- **This facility finished the fiscal year (Oct. 1, 2000, to Sept. 30, 2001) having poured 227 canisters of glassified waste.**
- **This achievement marks the fifth consecutive year the facility has met or exceeded its production goals.**
- **DWPF has produced more than 4.5 million pounds of glassified waste since radioactive operations began in March 1996. To date, 1,177 canisters have been poured (out of approximately 6,000 cannisters).**
