

# SRS SUCCESS!

## **SRS Excels In National Safety Council Survey**

- Savannah River Site employee responses to the 2001 National Safety Council's (NSC) safety perception survey say the site's safety culture is one of the best in the nation.
- NSC survey results reflect employee confidence in the ability of a company to ensure a safe work environment.
- SRS achieved a high 89 percent out of a possible 100 in 1998 on safety program questions, and improved to a very high 94 percent in 2001.
- Only 6 percent of the organizations in the NSC database achieved a higher overall score than SRS.

**“SRS has a safety reputation  
that reaches nationwide.”**

**Terry Miller, National Safety Council**
