**Strategic and Legacy Management Committee**

The Strategic and Legacy Management (SLM) Committee is involved in strategic issues relevant to the future of SRS. This includes long-term policy, planning and other “cross cutting” issues related to other CAB committees. Its work includes many programmatic topics. Specific areas of interest are development and deployment of technology, the SRS budget decision-making process, future land use, legacy management/long term stewardship, historic preservation and relevant national environmental policy. It encourages other CAB committees to integrate long-term stewardship into issue deliberations and CAB recommendations.

Topics under consideration for this Committee in 2007 include:

- Budget Development
- Gold Metrics
- End State Vision Document
- Land Management Plan
- Biomass Utilization
- Integrated Operable Units
- Historic Preservation
