

U. S. DEPARTMENT OF ENERGY
ENVIRONMENTAL MANAGEMENT SITE-SPECIFIC ADVISORY BOARD (EM SSAB)
Savannah River Site

MEMBERSHIP APPLICATION

The EM SSAB provides meaningful opportunity for collaborative dialogue among the diverse communities at the Department of Energy (DOE) Environmental Management (EM) clean-up sites. At the request of the Assistant Secretary or the Site Manager/Assistant Manager for Environmental Management, the Board provides advice and recommendations concerning the following EM site-specific issues: clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use and long-term stewardship; risk assessment and management; and clean-up science and technology activities.

The Board's membership is carefully considered to reflect a full diversity of viewpoints in the affected community and region. Members will be primarily people who are directly affected by DOE site clean-up activities.

Currently, the EM SSAB comprises eight local boards, which are located near DOE sites across the country: Hanford, Idaho, Nevada, Northern New Mexico, Oak Ridge, Paducah, Portsmouth, and Savannah River. If appointed, you will be serving on the SRS Citizens Advisory Board.

Members appointed by DOE to serve on the EM SSAB are subject to conflict-of-interest principles in order to maintain the integrity of the EM SSAB's work. These principles are designed to avoid financial conflicts of interest and the use of a member's position for private gain for themselves or others. Upon appointment, members are provided with details regarding the specific conflict-of-interest principles.

Please note: [U.S. federal government employees are ineligible to serve on the EM SSAB.](#)

If you would like to be considered for membership on the EM SSAB, please complete pages 2 - 4 of this application and forward it and your resume, if available, to the contact for your local EM SSAB listed on page 4. For more information on the EM SSAB, visit <http://www.em.doe.gov/Pages/ssab.aspx> or the Web site for your local board, SRS Citizens Advisory Board (<http://www.srs.gov/general/outreach/srs-cab/srs-cab.html>).

Membership Commitment

If selected to serve on the EM SSAB, I agree to attend board meetings and related training events, review background materials, and work cooperatively with the membership to fulfill the purpose of the board. Furthermore, I understand that the commitment of time expected is approximately 10 to 20 hours per month. I also understand that I will be a representative of my community and my work with the board will be directed toward issues affecting the EM program, specifically the following site-specific issues: clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use and long-term stewardship; risk assessment and management; and clean-up science and technology activities.
