

U.S. DEPARTMENT OF
ENERGY

***Savannah River Site's
2010 Topics for CAB Consideration
January 25, 2010***

Terry Spears, SRS CAB Co-DDFO and
Assistant Manager for Waste Disposition Projects
DOE-Savannah River Operations Office

EM *Environmental Management*
safety ♦ performance ♦ cleanup ♦ closure

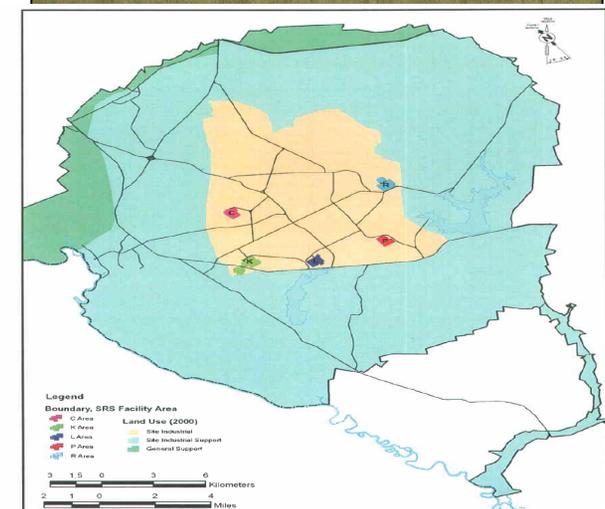

Objective

- To present DOE's 2010 plans and activities for the CAB to consider for input into the development of its 2010 Work Plan and public involvement activities.
- Proposed plans include those identified by program managers and those which the CAB has expressed an interest in continuing involvement.

Facility Disposition & Site Remediation

- Facility Disposition
 - Area Completion Project Technologies Update
 - Annual Area Completion Project Update
 - K-Area Cooling Tower Decommissioning
 - Heavy Water Components Test Reactor (HWCTR) Project
- Site Remediation
 - Environmental Management (Regulatory Integration, NPDES, NEPA)
 - Annual Updates
 - FFA Appendix E (FY10)
 - Integrator Operable Units Program
 - Remedial Actions – Four Mile Branch
 - A-, M-Areas Groundwater Remediation
 - Operable Unit Project Updates
 - D-, M-, R-, P-Areas Operable Units
 - CMP Pits Remediation Status
- Site Infrastructure (changes in buildings, roads, electrical, steam, & water systems)
- Biomass for Energy
- Forest Service

Waste Management

- Solid Waste
- Liquid Waste

Waste Management

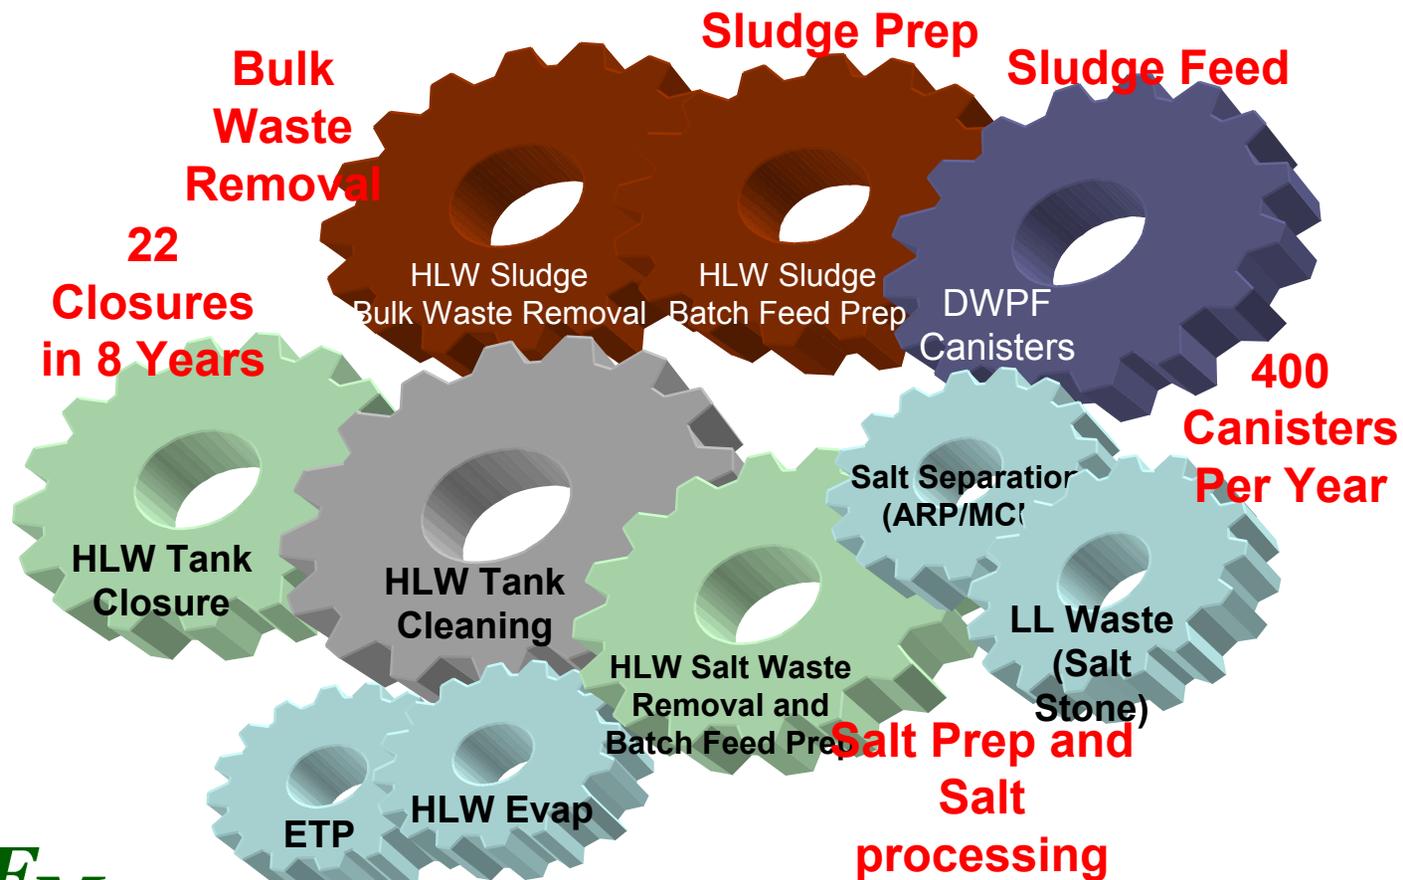

Solid Waste

- Transuranic (TRU) Project
- Treat and Dispose of all newly generated hazardous, mixed and low-level waste

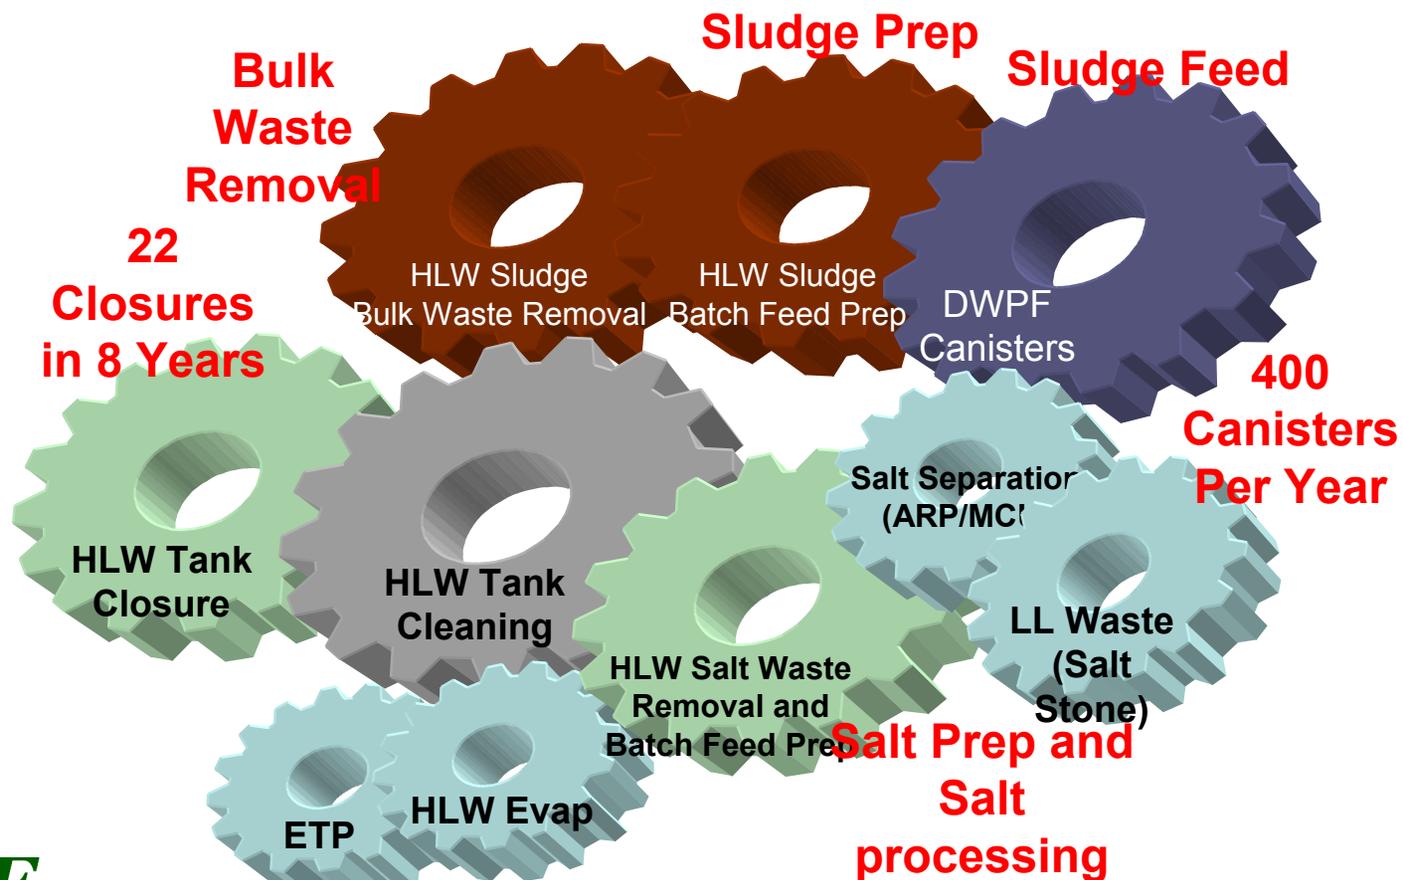

Waste Management

Liquid Waste Processing Approach Improvements

Waste Management

Liquid Waste Processing Approach Improvements

Nuclear Materials

- F-Area Operations
 - Depleted Uranium Oxide
 - 235-F Project
 - TRU Container Processing
- H-Area Operations
 - HEU Processing
 - Infrastructure Upgrades
- K-Area Operations
 - Pu Surveillance and Receipts
- L-Area Operations
 - FRR / DRR Program
 - Spent Fuel Program

Strategic & Legacy Management

- DOE-SR Planning
- Budget Formulation
- Performance Measures
- Recovery Act (ARRA)
- Risk Management
- Historical Preservation
- Energy Park Initiative and Task Force

Handling Emerging Issues & Topics

- DOE expects that the CAB will follow the topics selected for your 2010 work plan.
- However, DOE acknowledges that topics and issues may arise after the Work Plan has been approved.
- In such cases, we are requesting that the CAB Chair review and approve any Committee Chairperson's requests for additions to the Work Plan, as warranted, and make a detailed request during any full-Board meeting or via email to the CAB Support Team.
- Each request will be evaluated and a response given in a timely manner.
- The CAB is not to engage in activity regarding the requested topic until written approval has been received from DOE.

Summary

- Your mission as members of the SRS CAB is to provide informed and timely recommendations to the Department of Energy concerning decisions that affect the Savannah River Site in areas of environmental restoration, waste management, and related activities.
- The work you completed during 2009 was much appreciated and your recommendations are meaningful to the Site.
- I have presented DOE's 2010 plans and activities for you to consider as input into the development of the CAB's 2010 Work Plan, which will help you accomplish the above CAB mission.
- We look forward to working with you.
