

■ # Outside Rad Areas

■ # Outside RBAs

# **RADIOLOGICAL SAFETY PERFORMANCE** **Number of Occurrences of Radiolactive Material/Contamination** **Detected Outside of Radiological Areas through December 2007**

Data	Jan-07	Feb-07	Mar-07	Apr-07	May-07	Jun-07	Jul-07	Aug-07	Sep-07	Oct-07	Nov-07	Dec-07
# Outside Rad Areas	1	0	1	2	0	2	0	0	0	0	1	0
# Outside RBAs	1	0	1	2	0	2	0	0	0	0	1	0
<b>Definition</b>	<p>This chart reflects the number of ORPS reportable occurrences of radioactive material or spread of contamination found outside of radiological areas (includes RBAs, clean areas, and controlled areas), and outside RBAs (i.e. controlled areas and clean areas).</p>											
	<p><b>Analysis/Action</b>  <b>Color:</b> BLUE  <b>Analysis:</b> Excellent Performance  <b>Action:</b> WSRC continues to use engineering controls to contain contamination at the source and critique occurrences of spread of contamination or radioactive material.</p>											
<b>Goal</b>												
<p>Goal is based on occurrences outside of Rad Areas.</p> <p><b>Blue</b> = One or less/month</p> <p><b>Green</b> = 2/month</p> <p><b>Yellow</b> = 3 or more/month</p> <p><b>Red</b> = &gt; 3 or discovery of 1 offsite occurrence</p>	<p>WSRC PI Owner: Michael Gilles (803) 952-8389, Ellen Parrish (803) 952-6557</p>
