

## Errata

### From 2005 Report

---

The following information was reported incorrectly in the *Savannah River Site Environmental Report for 2005* (WSRC-TR-2006-00007):

---

- **Environmental Data Table, “Toxic Air Pollutant Emissions (2004)”**  
The data in this table, which covered 2004 only, was provided and reported inaccurately. A revised table—“Toxic Air Pollutant Emissions (2003–2005)”—covering three years of correct data appears in the Effluent Monitoring section of “Environmental Data - 2006” on the CD accompanying this report.
- **Page 33, left column, paragraph 9**  
The combined tritium releases in 2005 should have been reported as 2,506 Ci, rather than 2,494 Ci.
- **Page 33, left column, paragraph 10**  
The total tritium transport in SRS streams in 2005 should have been reported as 2,378 Ci, rather than 2,364 Ci.
