## **Permit modifications in F- and H-Areas HWMF requested**

The Department of Energy (DOE)-Savannah River Operations Office has requested from the South Carolina Department of Health and Environmental Control (SCDHEC) modifications to Savannah River Site's (SRS) 1992 Resource Conservation and Recover Act (RCRA) Part B Permit Renewal Application for Volumes IV and V. These modifications, which are Class 2 permit modifications, detail changes to the corrective action programs at the F-/H-Area Hazardous Waste Management Facilities (HWMF).

Several of the more significant changes being proposed in the revisions (rev 14 of Volume IV and rev 15 of Volume V) modify the extraction/injection rates, add phyto-remediation of the F-/H-Area groundwater treatment units effluent, and add Four Mile Branch surface water and seepage monitoring.

This notice begins a 60-day comment period. More information, including the actual permit applications, is available for review and copying at the DOE Public Reading Room located in the University of South Carolina-Aiken Library, or by contacting personnel identified in this notice. The Permittee's compliance history during the life of the permit being modified is available from SCDHEC.

A public meeting will be held on Tuesday, September 11, 3 p.m. at the Aiken County Public Library. Representatives from SRS will be available to answer questions on the modifications. Written Comments may be sent to SCDHEC. All comments will be considered in the final decision.

For additional information, contact Jim Moore, Westinghouse Savannah River Company, Savannah River Site, 742-A, Aiken, SC 29808. Please send your comments to J. T. Litton, Director, Division of Waste Management, South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, SC 29201-1708.
