## **Industrial Wastewater General Closure Plan for the F-Area Tank Farm Waste Tank Systems Available for Public Comment**

### **Background:**

The United States Department of Energy (DOE)-Savannah River Operations Office has requested from the South Carolina Department of Health and Environmental Control (SCDHEC) approval of the Industrial Wastewater General Closure Plan for F-Area Waste Tank Systems to support removal from service of underground radioactive waste tanks and associated ancillary equipment located in the F-Area Tank Farm (FTF) at the Savannah River Site (SRS). This General Closure Plan (GCP) establishes the protocols by which DOE intends to close FTF waste tank systems at SRS.

### **Plan Availability:**

More information, including the GCP, is available for review and copying at the DOE Public Reading Room located in the Gregg-Graniteville Library at the University of South Carolina-Aiken. A copy of the document is also available on-line at: [www.scdhec.gov/water](http://www.scdhec.gov/water) (the GCP is highlighted on the main water program page).

### **Information:**

A public meeting will be held on Tuesday, September 21, 2010 at 6 p.m. at the Aiken Municipal Center, 214 Park Avenue, SW, Aiken, SC. Representatives from SRS and SCDHEC will be available to summarize the plan and answer questions about it.
