National Nuclear Security Administration Operations and Programs  
Savannah River Nuclear Solutions, LLC*

---

### EDUCATION

*University of Florida  
Bachelor of Science, Chemistry*

*University of South Florida  
Core Chemical Engineering Graduate Studies*

### EXPERIENCE

Dennis Donati is Senior Vice President of National Nuclear Security Administration (NNSA) Operations and Programs for Savannah River Nuclear Solutions (SRNS) at the Department of Energy's Savannah River Site. In this role, he is responsible for Tritium Operations and Programs, the Waste Solidification Building construction project and Nuclear Nonproliferation Programs with NA-26.

Donati brings 32 years of experience to his current position. Prior to joining SRNS, he spent the majority of his career with Honeywell, where he held a series of strategic growth, operations and program management positions in Defense & Space.

He has widespread experience in strategic marketing, planning and pursuit initiatives, along with financial, operations and Voice of the Customer responsibilities. Most recently, he was the director of program management for the National Aeronautics and Space Administration (NASA) business segment in Phoenix, Arizona. In this role, he served as the Site Manager for the Houston Engineering Center, and managed mission critical activities across four manufacturing sites, including design and production of avionics systems, environmental controls and mechanical solutions for human space missions. Prior to this role, Dennis held leadership positions associated with strategic guidance products, satellite control products and materials engineering.

In addition to his university degrees, Donati is Six Sigma Green Belt certified and has gained professional training through an Advanced Program for Managers, Engineering Management School, a Leadership Development Program, a Strategic Marketing Program and others.

Donati received many professional awards during his time at Honeywell, including several Outstanding Engineering Awards, the ACE Award for department budget management and the CEO Chairman's Award for implementing manufacturing process team organization. In the community, he was the president and CEO of the Desert Foothills Athletic Club, a non-profit, volunteer-committed organization, from 1994 to 2011, and continues to support their business functions. He is currently on the Board of Directors of the Aiken (S.C.) YMCA.
