EXPERIENCE

Dwayne Wilson is the president and chief executive officer of Savannah River Nuclear Solutions, LLC (SRNS). He is responsible to the Department of Energy for safe, effective and efficient management and operations of the Savannah River Site. His responsibilities include providing vision, leadership, mission growth, technological advancement, and a performance-based culture of safety and operational excellence at the Site.

Prior to joining SRNS, Wilson was Group President of Industrial & Infrastructure of Fluor Corporation and served as its Group Executive. In this capacity, Wilson was responsible for diverse markets, including infrastructure, telecommunications, mining, transportation, life sciences, heavy manufacturing, advanced technology, microelectronics, commercial, institutional, health care, water and alternative power.

He has served as President of the Commercial & Industrial Institutional business line overseeing markets including hospitality, educational, hospitals, office buildings and selected governmental facilities. Wilson has also served as Senior Vice President and General Manager, Mining & Metals and was responsible for leading the Fluor's worldwide involvement in the mining industry.

As a Vice President in Fluor's Manufacturing & Life Sciences group, Wilson was responsible for multiple business lines in the food and beverage, metals, consumer products and general manufacturing industries. His project management experience includes leading a multinational consortium responsible for the engineering, design, construction and startup of a paper facility, program director for a nationwide modernization program for the U.S. Department of Commerce and project manager for a power generation project.

Wilson has also served as Vice President, Executive Director for the offices of the Chairman and Chief Operating Officer for Fluor.

Wilson has served as Chairman of the Engineering and Construction Contracting Association from 2002 to 2006. He is also a member of the Board of Directors of Ingredion Incorporated (formerly Corn Products International, Inc.) (NYSE: INGR). Wilson is a past Trustee of the Fluor Foundation and former executive director of the Urban League of the Upstate of South Carolina. He was named as one of the National Safety Council's 2014 CEOs Who "Get It" for world-class safety leadership.
