Savannah River Remediation Issues Fiscal Year 2013 Annual Report

AIKEN, S.C. (December 31, 2013) – Savannah River Remediation (SRR), the liquid waste contractor at the U.S. Department of Energy (DOE) Savannah River Site (SRS), has released its Fiscal Year 2013 Annual Report.

The document summarizes the activities and accomplishments of the safe and efficient liquid waste operations at SRS for Fiscal Year 2013 (October 1, 2012, to September 30, 2013), which was a year of many accomplishments, said Ken Rueter, SRR President and Project Manager.

“As the liquid waste contractor for DOE at SRS, SRR is focused on reducing the single most substantial environmental risk in the State of South Carolina, and in 2013, has made significant advancements in its mission to do so,” Rueter said. “These accomplishments were realized because of a workforce that continuously performs tasks with safety at the forefront.”

The SRR FY13 Annual Report is located at www.SRRemediation.com, the external web page of SRR. Click on this link http://www.srremediation.com/srr_ar_2013.pdf to go directly to the Annual Report.

The Savannah River Site, located near Aiken, S.C., is owned by the U.S. Department of Energy. The SRS Liquid Waste contract is managed by Savannah River Remediation, a team of companies led by URS Corporation, with partners Bechtel National, CH2M Hill and Babcock & Wilcox. Critical subcontractors for the contract are AREVA, Energy Solutions and URS Professional Solutions.
