December 3, 2019

Dear CSRA School Administrator:

Savannah River Nuclear Solutions (SRNS), LLC is pleased to announce that applications for its 2020 Innovative Teaching Mini Grants Program are now being accepted. The following documents are enclosed: a flyer, one poster to be displayed in your school, a copy of the Mini Grants application and a criteria/guidelines brochure. Please inform the applicants to read the guidelines instructions very carefully to prevent proposals from being disqualified. Help us make sure every educator who plans to submit a grant receives an application and a copy of the supporting documents. All documents can be found on our web page at http://www.srs.gov/general/outreach/edoutrch/ed_home.htm

Proposals MUST be received in our office by close of business March 4, 2020. Recipients along with an adult guest, their principal and superintendent will be invited to the awards reception. The reception will be held on May 14. Invitations will be mailed to the recipients in April.

SRNS is committed to providing assistance for the local education community by rewarding innovative teaching methods with funds to enhance elementary and middle school science, mathematics, and technology (STEM) programs in the Central Savannah River Area (CSRA) in (Aiken, Allendale, Bamberg, Barnwell, and Edgefield counties in South Carolina, and Columbia and Richmond counties in Georgia). All educators in these counties are invited to submit an application for one of three categories.

Please encourage your elementary and middle school educators to take advantage of this program. If you have questions or need additional information, feel free to contact me at 803-952-9450, or you may send me an email at: gladys.moore@srs.gov.

Sincerely,

Gladys N. Moore, Innovative Teaching Mini Grants Program Coordinator
