# SAVANNAH RIVER SITE CITIZENS ADVISORY BOARD

P.O. Box A ♦ Building 730-B, Room 1184 ♦ Aiken, SC 29802

A Department of Energy Environmental Management Site-Specific Advisory Board

March 24, 2015

Dr. David Moody, Site Manager  
U.S. Department of Energy  
Savannah River Operations Office  
P. O. Box A  
Aiken, SC 29802

Dear Dr. Moody:

The Savannah River Site Citizens Advisory Board appreciates the opportunity to provide input to the site's prioritized activities for Fiscal Year 2017. As in the past, the high level liquid waste management program remains our highest priority. The budget request for Fiscal Year 2017 should reflect this priority and should be at a level that guarantees compliance with all state and federal agreements so that all high level waste storage tanks are empty by 2028, per the Site Treatment Plan. Any funding short of this would be a great concern to us. Thus, as the budget is formulated, we will closely watch the level of funding for Program Baseline Summary-14C, Radioactive Liquid Tank Waste Stabilization and Disposition.

As for other Environmental Management mission activities, we prioritize them in the following order:

- |     |  |
|-----|--|
| 11C | Nuclear Materials Stabilization & Disposition  |
| 12  | Spent Nuclear Fuel Stabilization & Disposition |
| 30  | Soil & Water Remediation                       |
| 13  | Solid Waste Stabilization & Disposition        |
| 20  | Safeguards and Security                        |
| 100 | Savannah River Community & Regulatory Support  |

We hope that our input is taken seriously as the budget request for the Savannah River Site is formulated for Fiscal Year 2017.

Sincerely,

Harold Simon
