Regional Offices

- Environmental monitoring: Air, Water, & Land
- Emergency response activities
- Industry inspections and evaluations
- Investigating and resolving citizen complaints

Region 5 and SRS

- Regulatory
- Non-Regulatory

WATER PROGRAM

- WASTEWATER TREATMENT FACILITIES
- STORM WATER/ SEDIMENT & EROSION CONTROL
- DRINKING WATER
- STREAM MONITORING
- COMPLAINTS

AIR PROGRAM

- AIR QUALITY
- AIR MONITORING
- COMPLAINTS

LAND PROGRAM

- HAZARDOUS WASTE
- SOLID WASTE
- UNDERGROUND STORAGE TANKS
- EMERGENCY RESPONSE
- COMPLAINTS

Federal Facility Agreement (FFA) Site Evaluation Program

THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION
IV
AND
THE UNITED STATES DEPARTMENT OF ENERGY
AND
THE SOUTH CAROLINA
DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL

IN THE MATTER OF:)

The U. S. Department
of Energy's
SAVANNAH RIVER SITE)

FEDERAL FACILITY
AGREEMENT
UNDER SECTION 120 OF CERCLA
AND SECTIONS 3008(h) AND
6001 OF RCRA

Administrative
Docket No: 89-05-FF

Based upon the information available to the Parties on the effective date of this FEDERAL FACILITY AGREEMENT (Agreement), and without trial or adjudication of any issues of fact or law, the Parties agree as follows:

INTRODUCTION

This Agreement directs the comprehensive remediation of the Savannah River Site (SRS). It contains requirements for (1) site investigation and remediation of releases and potential releases of hazardous substances, and (2) interim status corrective action for releases of hazardous wastes or hazardous constituents. This Agreement delineates the relationship between its requirements and the requirements for corrective measures being conducted under Sections 3004(u) and 3004(v) according to the conditions of the SRS's Federal Resource Conservation and Recovery Act (RCRA) permit and the State's Hazardous Waste permit. It expands the site investigation process begun at the SRS under the RCRA permit to address (1) releases at or from units not included in the RCRA permit, and (2) releases of hazardous or radioactive substances or both not regulated by the RCRA permit. This Agreement also establishes requirements for the prevention and mitigation of releases or potential releases at or from the SRS high-level radioactive waste tank system(s) identified in Appendix B to this Agreement.

Environmental Surveillance and Oversight Program (ESOP)

- Monitor/Sample for primary contaminants with potential for public exposure
- Compare results with SRS
- Summarize findings in annual reports
- Provide mechanism for early release detection
