

## Savannah River National Laboratory Update

**Dr. Terry A. Michalske**  
Director, Savannah River National Laboratory

*SRS Citizen's Advisory Board Meeting  
September 26, 2017*

# Focused on National Challenges

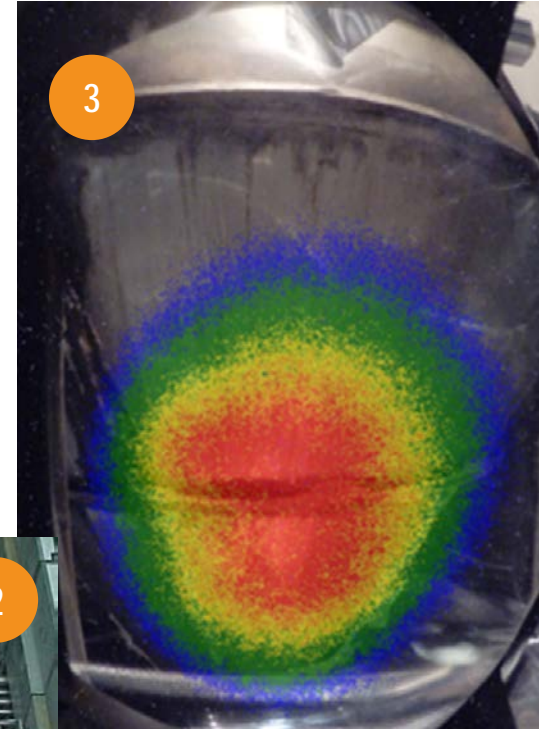

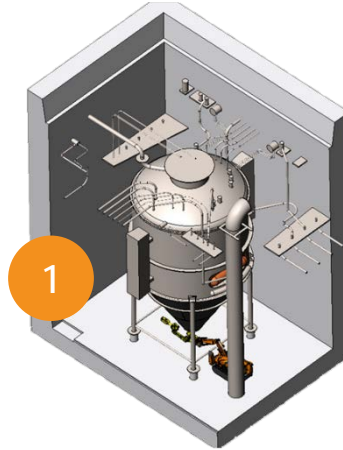

# Mobile Plutonium Facility – Recovering weapons grade nuclear materials

# GrayQb™ – Making radiological contamination visible

1. SRS evaporator cell drawing
2. Evaporator in containment cell
3. GrayQb™ mapping of evaporator to show leak location

## Cyber – Joint Faculty with Augusta University

First partnership for cybersecurity innovation and education at university's new School of Computer and Cyber Sciences

Faculty position will foster interdisciplinary research and education in the area of cybersecurity.

Expands Augusta University's Cyber Institute.

Will be located at the Hull McKnight Georgia Cyber Innovation and Training Center on the downtown riverfront.

# Committed to Regional, National Partnerships

We put science to work.™

Savannah River National Laboratory™

OPERATED BY SAVANNAH RIVER NUCLEAR SOLUTIONS
