Dear Ms. Loadholt:

SUBJECT: Citizens Advisory Board Recommendation Number 86 – Corrective Measures Study/Feasibility Study (CMS/FS) for the Old Radioactive Waste Burial Ground (ORWBG)

Thank you for submitting the subject recommendation. We appreciate your review of the CMS/FS for the ORWBG. As you may know, the CMS/FS is currently being reviewed by Region IV of the U. S. Environmental Protection Agency and South Carolina Department of Health and Environmental Control and we are awaiting their comments. Upon completion of their review, we will consolidate all comments and provide each reviewer with a written response. We will also address your comments during meetings of the Environmental Restoration and Waste Management Subcommittee or the ORWBG Public Focus Group.

We appreciate your continued focus on the cleanup of the Savannah River Site. If you have any questions, please call me or Cynthia Anderson at 803-725-3966.

Sincerely,
