Site ALARA Committee & Change Control Board Meeting

The Site ALARA Committee and Change Control Board held a teleconference.

Rollcall was performed and Quorum was met for the SAC and CCB. (See Attached)

1) Introduction: Kent Williams

Kent welcomed everyone to the meeting. Safety topic discussed about new face covering policy. Kent encouraged everyone to follow the policy and set the example. He also discussed his own personal experience with Coronavirus testing.

2) Environmental ALARA: Teresa Eddy

Teresa gave an overview of Liquid and Airborne ALARA guides status through April (See attached).

There were no questions on status.

3) Neutron Dose Issue: David Roberts

David Roberts gave a presentation on the issue of neutron dose from EPD vs dosimetry (See Attached). Issue was attributed to how conversion factors are managed by vendors vs the site.

Question was asked if there was a complete understanding of issue and if issue has been corrected. It was stated that the issue was understood and has been corrected.

Question was asked if there could be a repeat issue for 2nd quarter dosimetry. It was stated that there would be no repeat.

Question was asked following the statement that "Approximately 568 neutron dosimeters will have positive recorded dose after re-calculation" what percent of these dosimeters were assigned to KAC. It was stated that approximately 80% were assigned to KAC.

Steve Wilkerson stated that he appreciated External dosimetry taking on this issue as a priority.

4) Review of 1st/2nd Quarter Performance: Pamela Powell

1st/2nd Quarter PI were reviewed (See Attached)
