

Acknowledgements

Environmental Compliance and Area Completion Projects within the Savannah River Nuclear Solutions, LLC (SRNS), produces this document. Savannah River Site (SRS) acknowledges with deep appreciation the efforts of the following individuals, who provided valuable resources, information, technical data, or management, administrative, field, or other support for the SRS Site Environmental Report 2020 (contributors are with SRNS unless otherwise noted):

Jesse Baxley	Michael Lott	Shane Shull
Kane Bice	Lisa McCullough	Mark Spires
Jason Hyer	Grace Miller	Rebecca Sturdivant
Joyce Hopperton, Centerra-SRS	Winston Moore	Jason Walker
Natalia Johnson	Cap Nguyen	Elizabeth Wooten
Bill Lewis	Jesse Pierce	

Special thanks to Rochelle Beasley, University of Georgia's Savannah River Ecology Laboratory, for her support in providing contributions from SREL. Special thanks to Catherine Thomas, North Wind, for providing technical editing of this report. Her talent and diligence bring clarity to technical and complicated topics.

Thanks to Rachel Baker, Roy Blackwell, Jeff Bussey, and Robert Seremak for providing computer hardware and software support. Thanks to Daniel Campbell for reviewing and approving the release of this document and all supporting documents. Marvin Stewart is acknowledged with appreciation for providing Internet expertise and computer software support.

Appreciation is extended to the SRS Annual Site Environmental Report Team members, who, individually and as a group, dedicated a large portion of their time and attention to seeking out, collecting, and confirming the information that went into this report.

SRS also wishes to recognize the passing of Tim Jannik in July 2021. He contributed to the *SRS Environmental Report* for many years and was instrumental in providing the data that ensured the safety of the community and environment surrounding the Site.

Tim was a technical expert in his field and a leader in environmental health physics at the Savannah River National Laboratory. He was advisor to so many involved in preparing this report and to those in the Environmental Monitoring Program.

He was an impassioned and selfless giver and teacher, both professionally and in the community.

Matthew Baker

In appreciation for her efforts on behalf of DOE, SRS acknowledges Maatsi Ndingwan for her service as she moves on to other Site programs. Matthew Baker has taken over as the project lead. In coordination with Amy Boyette, James DeMass, Angelia Holmes, and Jimmy McMillian, Matthew facilitated the DOE review and approval.
