from the Savannah River Site

SRS Part B Permit Renewal

RCRA modifications submitted

The Department of Energy (DOE) - Savannah River Operations Office has submitted two modifications to the South Carolina Department of Health and Environmental Control (SCDHEC) on the Savannah River Site's (SRS) 1992 and 2000 Resource Conservation and Recovery Act (RCRA), Part B Permit Renewal Applications.

The Volume II, Hazardous Waste Storage Facility modification contains an update to the Contingency Plan. It is determined to be a Class I modification.

The second modification is for the Volume VII, Mixed Waste Management Facility (MWMF). This revision contains the Groundwater Protection Standard for the Northeast Plume Area of the MWMF in partial fulfillment of permit condition III.E.H.5.d. Also included are replacement pages for each of the four plume areas' respective statistical analysis report supplemental documents.

This notice begins a 60-day comment period for the Volume VII, MWMF modification. A public meeting on the MWMF modification will be held August 7, 3 p.m. at the Aiken County Public Library, 314 Chesterfield Street, Aiken, SC. Representatives from SRS will be available to answer questions.

Additional information, including the actual permit application, is available for review and copying at the DOE Public Reading Room located in the University of South Carolina-Aiken library, or by contacting personnel listed below. The permittee's compliance history during the life cycle of the permit being modified is available from the SCDHEC contact person.
